

\$PUBE

GIVE & GROW WITH US

WHITEPAPER

OVERVIEW

PUBE is a rug-proof, community De-Fi token designed to moon, reward token holders (HODLers), and to give back to our communities through charitable donations

**We will make the world a better place
(and rocket to the MOON)**

\$PUBE - Give & Grow With Us

PUBE.FINANCE

The (MOON) Mission

\$PUBE has a simple (moon) mission.

**Intergalactic
journey to price
discovery**

**Rewards token
holders for
holding**

**Donate as much
money as possible**

Token Economics

Symbol: **\$PUBE**

Total Supply:
10,000,000,000,000,000

Initial Distribution:

10% Smart Fee (reflection)

**5% Donation & Marketing
(Reserve Fund)**

**50% distributed
to token holders**

95% Fair Launch Distribution

50% supplied to liquidity pool

Weekly Burn Event

**Every Monday, we burn tokens exceeding the 5%
for the Reserve Fund**

Reserve Fund Charity & Marketing Wallet

**5% of the initial token supply was
distributed to the Reserve Fund**

**The Fund is used to donate to charity and
to grow the community through
marketing efforts**

**Transactions made from this wallet are
fully transparent and visible on the
blockchain**

**All transactions from the Reserve Fund
are disclosed daily to the community**

**The lead dev is (currently)
responsible for the Reserve Fund**

10% Smart Fee (Reflection)

The \$PUBE contract applies a 10% Smart Fee (“reflection”) on all transactions (buying, selling, and sending)

**Half is automatically distributed to holders (5%) for simply holding.
No lock up period. No farming.**

As long as you hold \$PUBE tokens, your wallet balance will increase forever as people buy and sell the token.

DIAMOND HANDS FOREVER.

The other half (5%) is distributed to the Liquidity Pool eliminating the need for LP providers

Weekly Burn Event

The Monday Night Shave

Every Monday, all excess tokens in the marketing wallet above the initial 5% distribution are burned and sent to the official burn address

Our first Token Burning Event resulted in 0.50% of the total \$PUBE supply being burned, forever

Exponential Burn Mechanism

Weekly burn events eliminate tokens from circulation while the designated burn address continues to accelerate the burning process through Smart Fee yields

This will serve as a tool to reduce circulating supply, increase the price floor and of course...

TAKE US TO THE MOON!

OFFICIAL BURN ADDRESS:

0x0000000000000000000000000000000000000000dead

SMART FEE

(REFLECTION)

The 10% Smart Fee leads to a higher price floor of \$PUBE while rewarding holders and giving money to people in need around the world

Holders are rewarded for the success of PUBE with higher volumes leading to more rewards

The success of PUBE also translates to more marketing and donations creating a loop of altruistic success

Safe & Secure Protocol

To ensure that PUBE is rugproof, the smart contract automatically locks half of the SmarFee (5%) in the liquidity pool to service trades.

PUBE is unruggable, with no single holder able to mint new tokens or adversely change the protocol

The contract is a direct fork of the SafeMoon contract, one that has been audited multiple times and has no malicious functions

\$PUBE LP Address (locked): 0xf51BF75d28748Ff37b282eaf314e2b82ffF900e0

DxLocker Proof: <https://bit.ly/3fw9TCo>

Ownership of the contract will be renounced after a full audit and validation from top-tier exchanges to ensure the ongoing success of the project once it is fully community-owned and operated.

Contract Information (Rugproof)

To ensure that PUBE is rugproof the contract is a direct fork of the SafeMoon contract, one that has been audited multiple times and has no malicious functions

We have not renounced ownership (yet) of the contract because we will need control over the tax rates to ensure we can make sensible deals with exchanges which will be worthwhile to both the community and the exchange

Charity Work

While PUBE holds undeniable potential as a meme-token, it also serves in fulfilling a charitable cause in the world

PUBE stands out amongst its peers by donating to important causes that affect people around the world such as homelessness, poverty, cancer, and more

We are also actively making an effort to on-board more charities into accepting crypto payments, thereby increasing crypto adoption in the philanthropy world

The (Moon) Crew

PUBE is a community-owned project made up of a decentralised team of 30+ volunteers from all over the world that continuously grows

Join the MOON Crew!
